

TOWN & COUNTY NEWS

DALLAS, SATURDAY, SEPT. 21, 1870.

FROST.—Mr. Ed. Dilshamm tells us that on Monday and Tuesday nights last, they had heavy frosts on Salt Creek. We have not noticed any signs of frozen dew about Dallas, though the nights have been cool.

RAIN.—The rain of Sunday last, though it did not dampen the ground enough for plowing, was greatly received and is having a very beneficial effect upon the health of this community, which has not been very good within the past six weeks.

FUNERAL.—The funeral obsequies of Mrs. D. M. C. Gault will take place to-morrow at the M. E. Church, at 11 o'clock a. m., after which the remains will be taken to the Dallas Cemetery for burial. The services will be conducted by Rev. P. S. Knight, of Salem.

LAND BUYERS.—Within the past few days there have been several parties through this section, looking at farms offered for sale and we hear of some transfers being made. Our advisers from Portland are to the effect that a large number of land purchasers are expected to arrive in Oregon within the next sixty days.

REAL ESTATE GAZETTE.—We acknowledge the receipt of forty or fifty copies of the September number of Russell & Ferry's Real Estate Gazette, published in Portland. Persons interested in the purchase or sale of real property can obtain copies of the above useful little paper by calling at this office.

PLEASURE SEEKERS.—A party consisting of five wagons, promiscuously loaded with men, women and children, together with all the paraphanelia incident to a pleasure trip, passed through town yesterday morning, on their way to the Ocean Beach at the mouth of Salmon river. We wish them a pleasant trip, but owing to the lateness of the season we fear they will enjoy more fresh than salt water.

COMPLETED.—All the grain in this neighborhood has been cut and put away in splendid order. The general yield in this county was not so good as anticipated early in the season. This result is, in the main, traceable to the very hot weather we had in July, the time when the grain was filling. This complaint of poor crops is not made of the fall sown grain, and that fact is another argument against spring sowing.

DESTRUCTION OF FERN.—Much has been said and written within the past ten years concerning the extermination of ferns, and as we have heard of a new plan, to us, we will mention it. Mr. M. L. Robbins, living near this place, plowed a piece of land last winter and sowed it in wheat this spring, and turned on hogs. Now, on the land that was plowed and sown not a stalk of fern is to be found. The hogs eat off the tender shoots as soon as they appear above ground. This treatment, Mr. R. thinks, will kill the plant if followed up.

TOOTHACHE PREVENTED.—A friend of ours, whose representations are entitled to the full credence, tells us that he has not only prevented but cured every case of toothache he has had in his family within the past two years, by occasionally washing the mouth thoroughly with a brush and strong household soft soap. In no instance has this treatment failed in effecting a cure and our friend has many rotten teeth. No other kind of soap, that has been tried, has the virtue, and the stronger the lye soap the better.

FIRE IN SALEM.—Mr. Ed. Clark, mail contractor from here to Salem, tells us that on Thursday evening last a very disastrous fire occurred in Salem, by which Drake's foundry, Boothby & Stapleton's sash and door factory and several other buildings were burned. The fire caught from the furnace of the sash and door factory, and by reason of shavings and other combustible material, its spread was most rapid. Nothing was saved from any of the factories, tools, machinery, patterns, everything being burned. The damage is estimated all the way from \$25,000 to \$75,000.

DIED.—GAULT.—At the family residence, in Dallas, Sept. 22, H. Anna R., wife of D. M. C. Gault, aged 29 years.

Desolate and alone! Dr. Pierce's Alt. Ext. or Golden Medical Discovery is not a fancy drink made of poor poisons, strychnine, whiskey, proof spirits and refuse liquors, opium and sweetened to please the taste and lead to ruin, as are the so-called "Bitters" of the day. It is a pure medicinal extract of native roots and herbs, and is a speedy, safe and sure remedy for all severe, acute and lingering coughs, loss of appetite, "Liver Complaint" or "Biliousness," and Constipation of the Bowels. Nothing equals it for purifying the blood and curing Pimples, Bores, Eruptions, Salt Rheum, Erysipelas, Scrofulous and all skin diseases. Sold by druggist.

A Gentle Whisper to Mothers.—If unfortunately you have lost your own teeth by neglect or mismanagement, take care that your daughter do not suffer the same penalty from the same cause. See to it that they brush their teeth regularly and thoroughly with Seosodant, and thereby you insure them sound and serviceable sets as long as they live. Many suffer rather than take nauseous medicine. All such, who suffer from coughs, colds, irritation of the bronchial tubes, and tendency to consumption, have in Dr. Wistar's Balsam of Wild Cherry a remedy as agreeable to the palate as effective in removing disease. "SPALDING'S GLUE" handy and useful. Subscribe for the REPUBLICAN.

STATE ITEMS

The P. T. Company are improving the upper Wallamet, the working party are now above Salem, working up stream.

J. W. Virtue, broker of Baker City, has sent from that place during the last four months \$62,000 in gold dust and bars.

The collegiate year in Wallamet University commenced last Monday under highly favorable circumstances. Prof. Rozes takes the Chair of Natural Sciences.

The Judges of the Supreme Court have accepted an invitation to visit the Linn County Fair this week. They will go up on Thursday and return Saturday.

The full amount of 50,000, to be given as a subsidy to bring the railroad through Albany has been secured by individual notes, and Mr. Holladay has been notified that Albany has complied with the terms of his proposition.

The Roseburg Ensign learns that an affray occurred at Empire City, in Coos county, in which a man named Jiggett shot another man named Akio, the ball taking effect in the breast and passing through the right lung. It was feared the wound was mortal.

The people living in the Forks of the Santiam rejoice in the prospect of having a depot of the Oregon and California Railroad within six miles of their town. The News says the depot will be located at Prechter, and that a graveled road will be made connecting the two points.

Gov. Grover has appointed H. H. Gilfrey, of Lane county, to be his Private Secretary; Thos. H. Cann, of Wasco, to be Agent of the School Commissioners, and A. P. Dennison, of Portland, to be Adjutant General. By the way, as this office has been a source of so much trouble to the Democracy and has been so bitterly denounced by them, why don't their Legislature abolish it?

From the Salem Statesman of Friday: Lieut. W. H. Hener, of the Corps of Engineers, U. S. A., who is engaged in making a survey of the Wallamet river, for the purpose of enabling Congress to act upon an appropriation bill for the improvement of that river, has completed the examination at Chitwood's Bar a mile below town, and yesterday moved his camp to Matthew's Bar. On Wednesday they took some 3,000 soundings, and during the time they have been at work have made complete and accurate charts of that part of the river. The work is being done under the supervision of Col. Williamson, U. S. A., who is now in town. The work on the Wallamet will be left in charge of Mr. C. F. Brown, while the officers go to Umpqua to organize a surveying party there, and after these two rivers are well underway the survey of the Sacramento will be commenced. Col. Williamson intends to complete all three of these rivers during the present year, if possible. The party at work below town will finish Matheny's Bar to-day, and to-morrow will move camp up the river to work on Humphrey's Bar.

The amount of insurance on property destroyed by the late fire at Canyon City was \$35,000. A correspondent writes there is difficulty about the adjustment of many of the losses, which promises to present some very crooked question if the suits are brought that talked of.

Tell the Truth, Dowell.

The following misrepresentation is from the Sentinel: The editor of the Polk County Republican talks of a "Sullivanizing" Polk county. From the most authentic sources, we learn that he has already sullied the Republican portion of it with his frothy political prescriptions, and if he would only "Sullivanize" the Democratic portion, it would make the thing about even. Sullivan's attacks on Senator Williams reminds us very forcibly of the story of the ram butting the gate post. There is this difference, however. As the sequel of that story has never been told, it is presumed that the ram knew when to quit. Sullivan's friends cannot claim this much discretion for him.

Mr. Dowell, you willfully misrepresent when you say, or intimate, that we have ever talked of Sullivanizing Polk county. It is well known by all who are acquainted with us that we are advocating the sentiments of the Union Republican party of Oregon, just the same as we always have. And you, Dowell, are mad, simply because we will not endorse, with you and the small faction to which you belong, the infernal heresy of universal suffrage, and advocate the pusillanimous policy of not only extending that privilege to the wild men-eaters of Africa, but also to the inhabitants of all Asia. Simply because we will not vacillate like yourself, and change our principles every new moon, you find fault. Sir, your bald eagle eloquence shall not drive us from the firm stand we have taken to advocate the right.

But you think our opposition to Williams reminds you of the time when you butted the gate post? That may be so, but, Mr. Dowell, you can't play us that way; we never let up on a possum until we know he is dead. The question was decided on Tuesday last.

Judge Upton, our same sake, of the Fourth District, is on hand, and is altogether a clever gentleman. When contemplating the Judge's many excellent qualities, we are almost ready to conclude there is surely something wrong in his case; for it is difficult for us to divine how a man can have sense enough to qualify him for Supreme Judge and yet have no more sense than to be a Radical.—Mercury.

It is more difficult for us to divine how it is that the Judge, being a name-ake of the thing who writes for the Mercury, can have sense enough to qualify him for Supreme Judge, and yet not have sufficient taste to have his name changed.

The American arm known as the Remington Rifle, is a better weapon than either the Prussian needle gun or the French chapepot. It is rumored that Austria is arming with this celebrated American gun.

Telegraphic Summary.

FLORENCE, Sept. 20.—The projects for a stay of hostilities recently made by the Russian representative, Herr Armeim, have failed.

The Italians are about to force the Roman gates, only a feeble resistance is anticipated.

LONDON, Sept. 20.—2.30 p. m.—There has been skirmishing near Inovoy and Charleton, on the outskirts of Paris. The Prussians occupy Meudon, Tellenue, Varais and Fontainebleau. The Crown Prince is near Fontainebleau. The Prussian crossed the Seine at Choisy and Leroi, a few miles above the confluence of the Marne.

Advices received from Strasbourg up to Monday say that the cannon of the garrison have been nearly silenced. Gen. Ulrich, the commander, is badly wounded. A vote was taken by the people of the city on the subject of surrendering, and it was decided by a large majority to continue the defense to the last.

OSTEND, Sept. 20.—A whole body of higher officers of the Russian marine artillery have been ordered to Cornstat. Engineers have been recalled to the Baltic. A camp of 200,000 men has been ordered formed on the frontiers of Prussia and toward Poland.

LONDON, Sept. 20.—The Times' Berlin correspondent confirmed a report that Prussia is ready to treat with any French Government capable of making any guarantee of peace.

Lyons is in a state of defense. There are many troops there. Colonels Seymour and Carleton, of the British army, who are with the armies now operating in France, attest to horrible suffering at the seat of war. Soldiers and peasants are famishing from starvation; women are violated, the outraged, and prisoners famished.

No faith is placed in the statement that Russia objects to the annexation of Alsace and Lorraine.

FLORENCE, Sept. 21.—Rome has been occupied by Italian troops. No bloodshed. The Pope forbids any resistance. Romans received Italian with the greatest enthusiasm. The city of Florence is covered with flags in honor of the news of the recapture of Rome by Italians. The population are nearly crazy with delight.

Marvelous activity is exhibited on the part of the French at and around Paris, earthworks being thrown up at the northern approaches to the city and defenses on other sides are being strengthened.

Every hour Russia is moving large bodies of troops into Poland. Bavaria has made arrangements to supply her with a new pattern of mitrailleurs which fires 350 ball per minute.

The revolution at Paris recognized as Republican; that at Lyons as social. Red flags have been adopted by the latter.

PARIS, Sept. 21.—It is reported that the Prussians on the line of the Orleans railroad after a sharp engagement were driven and repulsed back upon Malo-chaubert.

The ironclad gunboat for the defense of Paris have commenced operation.

A SNAKE STORY.—The Columbus (Ohio) News says that a farmer near here, recently in walking about his place discovered a nest of rattlesnakes in an old log about which several pieces of rock lay scattered. He had heard that hogs were death on snakes of all sorts, and not caring to attack the nest himself, he thought he would try the experiment and see a fight. He drove several hogs in the vicinity of the nest and watched the result. The hogs seemed to scent the snakes and commenced rooting eagerly about the spot. In an instant half a dozen of the serpents emerged from their hiding places to attack the intruders, who manifested a zealous disposition to go in. A snake would rear himself to the height of the back of a hog, shake his rattles, and plunge his fangs into the animal with lightning like celerity, and then dart away, pursued by the grunter who dexterously received the sting upon the fleshy part of the jaw. Time and again this would be repeated, until the hog got his fore foot upon the snake when he would deliberately rip the snake in two, and then devour him. This slaughter continued until all the snakes were disposed of when the hogs grunted contentedly, and without any signs of being disturbed, waddled off in search of other provender. The eye-witness to this singular contest, which was not without its exciting features, declares himself convinced that a pig is impervious to the poisonous bite of any kind of serpent.

"Woe to the Conquered"—The Opinion Nationale announcing the appointment by the Prussian King of Governors of the provinces of Lorraine and Alsace, says: "Woe to the conquered should Prussia succeed; France will be treated with unexampled cruelty will be dismembered, robbed and crushed. But the nation, at some future day will seek revenge. That source of the Democracy cannot be destroyed. The present war is one again of the old against the new, the right of the people against the Kings."

Don't brag boys. If you have anything of particular value, or can do anything particularly well, be modest about it. A boaster is never loved by his companions; and generally, the more one boasts, the less real worth he possesses.

Mark Twain says that the Sandwich Islands dish of plain dog is only our cherished American sausage with the mystery removed.

The oasis of El Dakhleh, in the desert of Egypt is 28 miles long and 15 miles wide. Delicious fruit grow there, and there are several villages, besides some ruins of towns and temples.

Let not Prejudice usurp your Reason.

It is a fact that, in the minds of many persons, a prejudice exists against what are called patent medicines; but why should this prevent you from trying an article that has such an array of testimonials to support it as HOPKINS' STOMACH BITTERS? Physicians prescribe it; why should you discard it? Judges, usually considered men of talent, have used and do use it in their families; why should you reject it? Let not your prejudice usurp your reason to the everlasting injury of your health. If you are sick, and require a medicine, try these Bitters.

When the bodily energies are worn out by anxiety and need a stimulant, this is the best that can be taken. It is tempered and modified by hygienic herbs and roots, which prevent it from fevering the blood; and hence it does not produce a mere temporary excitement, to be followed by injurious reaction, but communiates a permanent potency to the entire vital organization. Some of its herbarial constituents are slightly soporific, so that in cases where sleeplessness is one of the accompaniments of nervous disease, a dose of it taken toward bedtime will tend to produce quiet and refreshing slumber. For Palpitation of heart, tremors, hysterics, fainting fits, general restlessness and the causeless fears and distressing and fanciful ideas which ladies are especially subject to under certain morbid conditions of mind and body peculiar to their sex, the Bitters will be found the most agreeable and certain of all counter-irritants.

The constitutionally nervous may readily keep their irritability in constant check by the daily use of this healthful vegetable tonic; and those who have "shattered their nerves" by the use of spirituous liquors, or by the indulgence in either physical or intellectual labor, will find in this vitalizing elixir a prompt restorative.
